CHS Container Group

Your global partner

For nearly 40 years, we have been envisioning and developing mobile solutions for our customers. Our products range from standard sea containers and reefer containers to room components and custom-made special containers. Flexible and fast, we keep complex projects moving.

Experts at CHS consult with customers to plan, design and manufacture the right products, overseeing the entire process from start to finish. This calls for continuity and team spirit and that's why, locally and globally, our team boasts specialists in haulage, shipping, mechanical engineering, shipbuilding and automotive engineering, as well as industry and trade. And it goes without saying that we provide round-the-clock support, across countries, for assembly, repair and maintenance.

Around the world today, exporters, forwarding agents, transportation companies and many customers in different sectors of business rely on CHS's innovative ideas for movability. Try us out. We look forward to your enquiry!

Everywhere

CHS Container Handel GmbH

The use of containers has virtually no limits. Reliability and quality make the difference here. We guarantee that we can supply you with the right "box" – whether it's a standard sea or storage container or a specially adapted workshop container: one or a hundred, today or next week. If you are looking for additional work-space, an unusual housing idea, sanitary facilities or cold storage – temporarily or indefinitely – we have the right container for you.

The CHS team is happy to advise you on the unexpected options that our containers offer. Please don't hesitate to get in touch with us.

CHS Spezialcontainer Shelter and Engineering GmbH

Our CHS container "smithy" specialises in developing, constructing and manufacturing special containers that can integrate system components of all kinds. With many years of experience and unique expertise, our engineers can offer you highly functional and individual container solutions.

Besides our complete services in consulting, development and production, we arrange the worldwide transportation of our containers and the assembly of systems on site.

CHS Spezialcontainer always finds the right solution for you and supports you by assembling, dismantling, repairing and maintaining your project – across countries and round the clock of course. We provide full service from one source!

Refrigerating

Celebrating

CHS Südcon GmbH

Next to traditional container leasing, we specialise in the leasing, selling, planning and handling of cold storage cells and reefer containers. Whether you are refrigerating or freezing food for the long term or for coming events – we plan, deliver and arrange customised solutions for your event using the latest technology; our products include sanitary facilities and kitchen containers with all the equipment you need. Our solutions meet the requirements of the HACCP food safety system.

We provide extensive advice on the observance of food guidelines, any new regulations and official requirements. Compliance with cold chain and hygiene rules, temperature logging, redundancy and explosion protection are a matter of course for us, as is our nationwide service system. Whether we are planning or producing containers for rental or sale, or fully managing logistics, we deliver everything on time from one source!
